

Heartland Paver

Heartland Paver's single overall shape features four joint patterns to create the appearance of 13 different sizes of natural-cut stone. The paver's textured top, wide joints and non-chamfered edges produce a variety of intricate designs. Their smooth, natural look adds depth and beauty to any outdoor space and they are durable and easy to install.

NOTE: The use of polymeric sand in the joints is required for installation to ensure the long-term performance of the pavement.

Shown: Gray-Moss-Charcoal Heartland Paver installed in an ashlar pattern. Steps and pool coping are Charcoal bullnose.

Polymeric Sand

NOTE: ALWAYS VIEW PRODUCT SAMPLES PRIOR TO INSTALLATION The color and texture of Angelus products are not specific to any product or groups of products. Variation in color, shades of color, texture, and aggregate exposure is inherent in all concrete products and exact matches cannot be guaranteed. Not all products are stocked in all colors. Charts with more product related color availability are shown from product pages. Colors and textures represented in print and online are as close as possible to the actual product. Photographic techniques, printing techniques and viewing monitors – as well as actual viewing conditions – can alter perception of color.
